DECK BUSHINGS

Centralisers.

Precision centralisers keep the drill string aligned — reducing lateral vibration, drill-pipe wear and friction, and protecting borehole straightness.

Hardened
high-alloy steel

3 rows
heavy-duty bearings

2 types
rotating & non-rotating

01
High-alloy hardened steel
Maximum tool life in abrasive environments.

02
Rotating & non-rotating
Both versions available.

03
Built-in wear indicator
Signals replacement before failure.

04
Three heavy-duty bearing rows
Handle heavy loads while rotating smoothly.

05
Changeable sleeves
Rapid servicing and extended core-tool life.

06
Straighter holes
Better alignment protects borehole straightness.

Need a centraliser for your rig?

Send us your rig model, deck bushing size and drill-pipe diameter.
